B127A-Series AV over Cat6 Extenders

Connect 4K sources
to displays or projectors
over Cat6 cabling in
any environment.

4K/60 | HDR | 4:4:4 | PoC | 400 ft. +
HDMI | DP | USB-C | IR/USB Control

Introduction	2
B127A-Series Overview	3
Single-Display Configuration	4 – 5
Multi-Display Configuration	6 – 7
Cat6 and Audio/Video Cabling	8

Powering and Connecting Your World

Tripp Lite Pro AV Solutions

Whether you are an installer, integrator, end user or reseller, you'll benefit from Tripp Lite's commitment to bringing the plug-and-play simplicity and affordability of IT equipment to the Pro AV market.

Perfect for Jobs Big and Small

Field-proven in countless commercial installations, Tripp Lite Pro AV solutions support digital signage, video conferencing, collaboration, work-from-anywhere, projector and display applications in corporate, retail, government, education, healthcare, house-of-worship, home and hospitality (hotel, restaurant, bar) environments. Whether you need one adapter for a teleconference room or a complete solution for a corporate facility, Tripp Lite Pro AV solutions are the answer.

Trusted Name, Improved Experience

Engineering and customer service excellence have driven Tripp Lite since 1922. Tripp Lite is far from new, but offers an improved Pro AV experience that replaces complexity with simplicity and sticker shock with affordability. Tripp Lite Pro AV solutions are quick to ship, a breeze to install, easy to use and kind to your budget.

Old-Fashioned Service Excellence

Tripp Lite's in-house support team makes sure everything works together and sets you up for success before you go on-site. And if you run into unexpected roadblocks, they can provide quick answers via phone, email or chat before delays cost you time and money. They have years of experience solving problems installers face in the field.

“ I am happy with the purchase and even more happy with the service I received from Tripp Lite.

They were able to provide answers quickly, while my inspector was still on site. This saved me a lot of time, and maybe money too. Nice job and thanks! – Online Review from Rob R.

”

B127A-Series Extenders Complete Your Digital Display Installation

Flexible & Convenient Options

- Extenders support HDMI/DVI, DisplayPort and USB-C sources
- Box, faceplate and pigtail style options are available
- Signals travel via Cat6 cabling, which can easily pass through conduit to meet building codes
- Power over Cable (PoC) powers the transmitter and receiver from a single outlet to increase installation options

Long-Distance Video Transmission

- Extenders transmit 4K/60 signals up to 230 ft.
- Adding a signal repeater increases distance to 400 ft.
- Daisy-chainable transceivers add 230 ft. at each level, up to 1090 ft. total with maximum 4-level chain and repeater

High-Resolution Video

- Extenders support UHD video resolutions up to 3840 x 2160 (4K x 2K) at 60 Hz, as specified in HDMI 2.0
- Extenders support 4:4:4 color, HDR, HDCP 2.2 and 7.1-channel surround sound, with optical audio extraction

Control Extension

- IR signal extension permits source management from display
- USB extension connects touchscreen to remote computer

Notes: DisplayPort models support up to 4K/30 resolution. DVI connections require HDMI-to-DVI adapters and support video only. USB-C and some DisplayPort models do not support HDR. Refer to product specifications at triplite.com for detailed information about specific models.

B127A-SERIES EXTENDERS can support a single display or multiple displays. For more information about configuring your solution, refer to the appropriate section or contact Tripp Lite:

Single-Display Setup Pages 4-5

Multi-Display Setup Pages 6-7

Support: Email proav@triplite.com, call 773.869.1773 or access live chat at triplite.com.

B127A-1A1-FHH Extender Kit

SIMPLE & FLEXIBLE Single-Display Configuration

Single-display configurations are commonly required in settings like classrooms, conference rooms and hybrid meeting spaces. Follow the steps at right to find your solution.

- 1 Choose your source connection type and transmitter style.
- 2 Choose your display/projector connection type and receiver style.
- 3 Refer to the configuration table below to find a match.
- 4 Don't forget! Add Tripp Lite solid-conductor Cat6 cables and AV cables to complete your connection. (See page 8.)

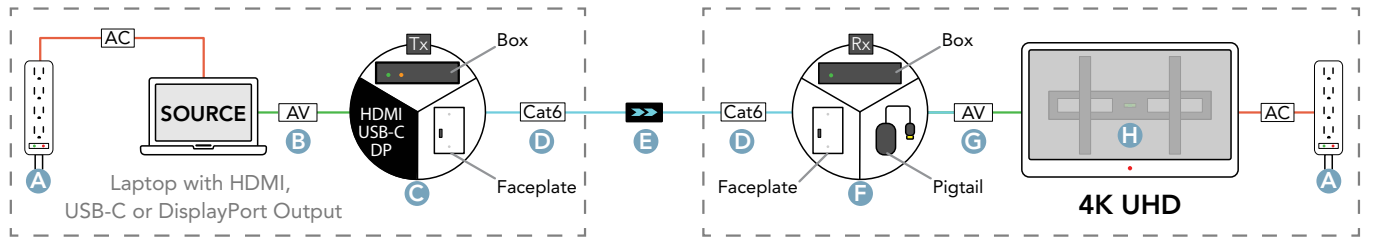

Single-Display Configuration Table

Model	Source Type + Transmitter Style	Display Type + Receiver Style
Extender Kits (Transmitter + Receiver; 230 ft. Standard Distance; 400 ft. Maximum Distance with Optional Repeater)		
B127A-1A1-BCBH	USB-C Box	HDMI Box
B127A-1A1-BDBD	DisplayPort Box	DisplayPort Box
B127A-1A1-BDBH	DisplayPort Box	HDMI Box
B127A-1A1-BDFH	DisplayPort Box	HDMI Faceplate
B127A-1A1-DFFH	DisplayPort Faceplate	HDMI Faceplate
B127A-1A1-BHBH	HDMI Box	HDMI Box
B127A-1A1-BHFH	HDMI Box	HDMI Faceplate
B127A-1A1-BPHH	HDMI Box	HDMI Pigtail
B127A-1A1-FHHH	HDMI Faceplate	HDMI Faceplate
Extender/Switch Kit (Transmitter/Switch + Receiver; 4 Sources to 1 Display)		
B127A-4X1-BH	4-Port HDMI Large Faceplate	HDMI Box
In-Line Repeater (Increases Maximum Distance to 400 ft.; Limit of 1 Repeater per Configuration)		
B127A-010-H	HDMI (In-Line)	
Extender/Transceiver Kits (Transmitter + Transceiver; 230 ft. Standard; 1090 ft. Maximum with Optional Repeater and 3 Optional Transceivers)		
B127A-111-BHTH	HDMI Box	HDMI Box (Transceiver); Add 1-3 B127A-110-BH Transceivers (Shown Below)
B127A-111-BDTD	DisplayPort Box	DisplayPort Box (Transceiver); Add 1-3 B127A-110-BH Transceivers (Shown Below)
B127A-111-BDTH	DisplayPort Box	HDMI Box (Transceiver); Add 1-3 B127A-110-BH Transceivers (Shown Below)
Transceivers (For Extender/Transceiver Kits; Each Transceiver Increases Maximum Distance by 230 ft.; Limit of 4 Transceivers per Configuration)		
B127A-110-BD	N/A	DisplayPort Box (Transceiver)
B127A-110-BH	N/A	HDMI Box (Transceiver)

SIMPLE & FLEXIBLE Multi-Display Configuration

Multi-display configurations are commonly required in settings like retail, hospitality and houses of worship. Follow the steps at right to find your solution.

- 1 Choose your source connection type and transmitter style.
- 2 Choose your display/projector connection type(s) and receiver style(s).
- 3 Refer to the configuration table below to find a match.
- 4 Don't forget! Add Tripp Lite solid-conductor Cat6 cables and AV cables to complete your connection. (See page 8.)

Multi-Display Configuration Table

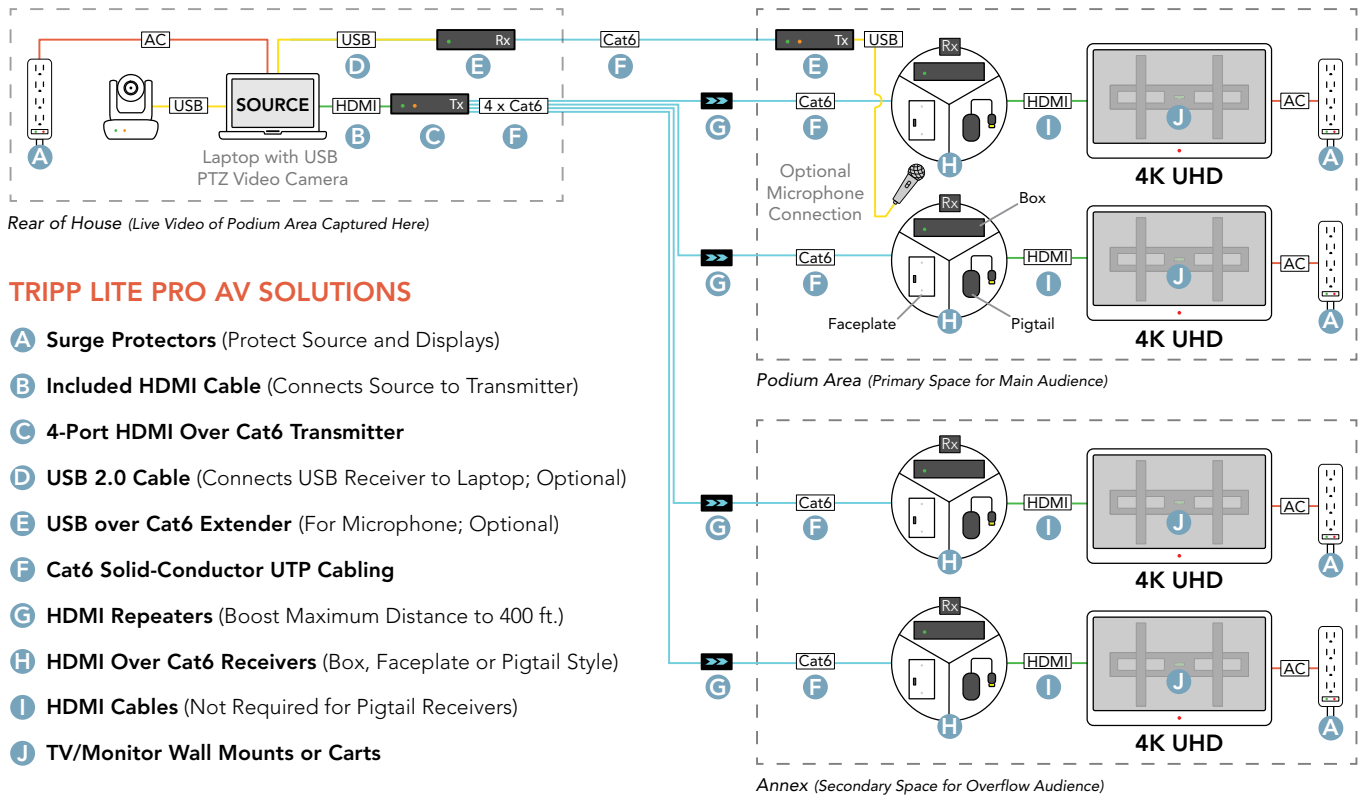

Model	Source Type + Transmitter Style	Display Type + Receiver Style
Extender/Splitters and Extender/Splitter Kits (230 ft. Standard Distance; 400 ft. Maximum Distance with Optional Repeater)		
B127A-002-BH	HDMI Box (2-Port Splitter)	Choose 1-2 Add-On Receivers (Shown Below)
B127A-004-BH	HDMI Box (4-Port Splitter)	Choose 1-4 Add-On Receivers (Shown Below)
B127A-004-BHPH3	HDMI Box (4-Port Splitter)	3 x HDMI Pigtail; Also Choose 0-1 Add-On Receivers (Shown Below)
B127A-002-BHPH2	HDMI Box (2-Port Splitter)	2 x HDMI Pigtail
Extender Kits with Dual-Output Receivers (230 ft. Standard Distance; 400 ft. Maximum Distance with Optional Repeater)		
B127A-2A1-BHBH	HDMI Box	Dual-Output HDMI Box
B127A-2A1-FHFH	HDMI Faceplate	Dual-Output HDMI Faceplate
Add-On Receivers (Add to B127A-002-BH, B127A-004-BH or B127A-004-BHPH3.)		
B127A-1A0-BH	N/A	HDMI Box
B127A-1A0-FH	N/A	HDMI Faceplate
B127A-1P0-PH	N/A	HDMI Pigtail
B127A-2A0-BH	N/A	Dual-Output HDMI Box
B127A-2A0-FH	N/A	Dual-Output HDMI Faceplate
In-Line Repeater (Increases Maximum Distance to 400 ft.; Limit of 1 Repeater per Configuration)		
B127A-010-H	HDMI (In-Line)	
Extender/Transceiver Kits (Transmitter + Transceiver; 230 ft. Standard; 1090 ft. Maximum with Optional Repeater and 3 Optional Transceivers)		
B127A-111-BHTH	HDMI Box	HDMI Box (Transceiver); Add 1-3 B127A-110-BH Transceivers (Shown Below)
